### B' REGIONAL HIGH SCHOOL OF NICOSIA

**SCHOOL YEAR 2015- 2016**

## SCHOOL HISTORY

The B' Regional High School of Nicosia celebrates twenty years since its foundation (1996 -2016). Innovative and pioneering, already awarded in 1996 for its modern architectural design. Today 401 students from 25 villages of Tamasos area, aged 12 to 15 are studying at the school .

It has 15 classrooms, two labs for Design and Technology lessons, two workshops for Healthy Life Lessons, specifically designed classrooms for Art, Music, Languages, History, Mathematics, and

Labs for Biology, Chemistry, Physics, and Computing lessons. There is also a Multi Purpose Room, a Library and modern stadiums.

By participating in indoor school events and in national public celebrations, students develop skills and cultivate the principles of modern active citizenship.

The school was awarded with the label "Safe School for the Internet" for its policy against the dangers of the Internet. It also participates in three EU programs Erasmus+ and the interstate environmental program between Greece – Cyprus “ golden-green leaf "to protect endangered, indigenous species such as the Cyprus water-snake. This year, for the first time ,the Astronomical Group with night observations of celestial phenomena and visits to the planetarium works in our school.

The version of the school newspaper "Our World" works with authors our young journalists, who won the first nationwide prize last year.

Final scene from the theatrical play “Wedding”Anton Tsechof

Programs:  Erasmus+

### I. Bullying and Cyber – bullying: How to Prevent and Fight the violence at school

The program aims to create a policy to prevent violence at school. Our school participates in the program about Bullying and Internet bullying at school: *Preventing and combating violence*. In this program schools from Italy, Portugal, Czech Republic, Lithuania, Turkey, Greece, Germany and Spain participate and deal with conflicts.

### II. Europe Through the Lines of Literature

During the program students seek to learn about European artists, writers and generally people of art and come in contact with the foreign culture and civilization.
